IN ORDER CO.

Digital Legacy Deep-Dive

Your phone, your accounts, your photos: ready, without sharing a single password.

This binder is a personal organizer. It is not a will, a power of attorney or a medical directive, and it is not legal, medical or financial advice. Laws differ by state and country: ask a local professional for legal documents.

IN ORDER CO.

Before you start

The goal: your person can act without ever knowing your passwords.

Never write full passwords or PINs in this binder. Write where things are and how your person can get to them: the name of your password manager, who holds the emergency access, and where a sealed envelope is kept.

- [ ] I use a password manager (or will set one up today)
- [ ] I know where my phone's emergency / legacy contact settings are
- [ ] I have a place for a sealed envelope (safe, trusted drawer, attorney)

SECTION 1

Device plan

Phone, computer, tablet.

Devices

Device	How my person can access it (hint)	Wipe, keep or give?

SECTION 2

Account inventory

By category, so nothing is forgotten.

Email and phone

Account	Username	Recovery method	What to do

Banking and money apps

App / site	Username	Recovery	What to do

Social media

Platform	Username	Legacy contact set?	Memorialize / delete

Shopping, streaming, subscriptions

Service	Username	Charges to	Cancel?

Service	Username	Charges to	Cancel?

SECTION 3

2FA and recovery

The step that blocks everything else if it's missing.

Authenticator app I use:

Where my backup / recovery codes are:

Phone number used for text codes:

What happens if my phone is lost (plan):

SECTION 4

Photos and memories

What to keep, and who should have it.

Where my photos are backed up:

Who should receive copies:

Videos / files that matter most:

Notes for my person

SECTION 5

Legacy settings checklist

Turn on what your devices and accounts offer.

- [ ] Phone: emergency contact on the lock screen / medical ID
- [ ] Phone account: legacy or inactive-account contact turned on
- [ ] Email: inactive-account / legacy option reviewed
- [ ] Social media: legacy contact or memorialization choice made
- [ ] Password manager: emergency access granted to my person
- [ ] Cloud photos: shared album or backup my person can reach

Each company names and places these settings differently and changes them over time. Check the current help pages of each service when you turn them on.
