The Solo Adult's Just-In-Case Binder

Everything your person needs. Nothing they'd have to guess.

This binder is a personal organizer. It is not a will, a power of attorney or a medical directive, and it is not legal, medical or financial advice. Laws differ by state and country: ask a local professional for legal documents.

IN ORDER CO.

How to use this binder

Ten minutes today. One afternoon for everything.

You are everyone's emergency contact. This binder makes sure you have one too. If something happens to you tonight, your person opens this and finds what matters in ten minutes: who to call, who feeds your pet, how to get into your home, what pays itself every month and what you want.

Three rules

- [ ] Start with section 1, 'Start Here'. It takes ten minutes and covers the urgent things.
- [ ] Each section opens with a short list. Do that list first; fill in the rest later.
- [ ] Review it once a year (section 12). Put a reminder in your calendar now.

Never write full passwords or PINs in this binder. Write where things are and how your person can get to them: the name of your password manager, who holds the emergency access, and where a sealed envelope is kept.

Fill it in on screen or print it

Type directly into this PDF with any free PDF reader (Adobe Acrobat Reader, Preview on Mac, your browser) and save it. Or print it and keep it in a binder. Tell your person where it is.

This binder lives at (place / folder / app):

My person knows where it is (date I told them):
